**Product Name: Bio-Matic™ Fingerprint Recognition Door Lock**  
**First retail availability: January 2007**  
**Suggested Retail Pricing: \$299.99**

**What it is:**

This weather-proof door lock uses the latest biometric and security technology. It can be unlocked by 150 fingerprints, 78 passcodes, or 2 backup keys.

**How it works:**

It uses the latest biometric fingerprint entrance technology. Just slide up the protective cover and put your finger on the scanner, within one second, it will search and match your fingerprint with up to 150 fingerprints that stored in the lock. If yours is stored in it, the lock will open automatically. Add or delete fingerprints right at the lock without additional equipment. It can replace any standard door locks and can be installed by DIY (do-it-yourself). The sliding front cover not only allows protection for the optical sensor but also activates the fingerprint scanner when lifted. Powered by 4 AA batteries that will handle up to 15,000 entrances.

**Who Cares?**

Home and business owners who want to give access to others such as children, family members, employee without needing to worry about them losing the keys.

**Why bother?**

Locking yourself out or losing your key will never happen again.
